The Alphabetical List should be printed with the Subscribers' Names and Numbers in bold letters, and profession, if any, and addresses in small types, with about 8" blank space between each alphabetical group in the case of Bangalore City and Cantonment Exchanges, and with only 3" blank space between each group in other cases. The Group List, arranged in the order of different Government Departments and Palace, Private Firms, Hotels, Theatres, etc., should be printed with names and numbers only, with 4" blank space between each group. The Numerical Index shall have only the phone numbers and reference to the pages and columns in which they appear in the Alphabetical List.

The Directory shall be of $\frac{1}{8}$ Royal size, *i.e.*, $10\frac{1}{2}" \times 7\frac{1}{2}"$ approximately, with 1-lb. stiff cardboard binding with calico back and art-paper, with a multi-coloured advertisement or art-plate on the front cover page and some other advertisement on the end cover page in single or double colour. 25-lbs. Royal paper should be used for the General Information section and the Alphabetical Lists of subscribers and some of the advertisements. The Group Lists and Numerical Index should be printed on different coloured papers of sufficient thickness, as in the existing Directory, and some of the advertisements also should be printed on coloured papers of assorted colours. Between each list of subscribers on the different Exchanges, thick Hampton cover paper of different colours should be put in, which may contain advertisements, and these should have punch-cutting at three different places to facilitate quick and easy reference to the alphabetical lists of the different Exchanges. The Directory should have rounded corners with a small hole punched at the left-hand top corner and a piece of coloured silk thread attached thereto, and should be similar in general get-up to the one now in use, which may be seen in our office before quoting.

A lump-sum quotation for the entire work as per the above specifications and estimated number of pages, should be furnished ; and separate rates should also be quoted for each page of—

(*a*) General Information section ;
(*b*) Advertisements ;
(*c*) Alphabetical and Group Lists and Numerical Index ;

so that if the number of pages of any of the above exceeds or falls short of the above-estimated figures, necessary addition or reduction may be effected in the bill towards the same. No extra charges should be claimed for any deviations or modifications that may be found necessary in the course of compilation and execution of the work, but not provided for in this enquiry.

The tenderers should state the shortest time within which they can print and supply the Directory and should strictly adhere thereto, failing which, the contract is liable to be cancelled and the work got done at the firm's risk and expense from other sources, and in addition a penalty of 3 per cent of the value of the order is liable to be levied, as and by way of liquidated damages.

Samples of the different papers required to be used should accompany the tender and a deposit of Rs. 100 should be furnished therewith, which will be retained as earnest money in the case of the successful tenderer for satisfactory execution of the work. Non-receipt of this deposit will entail such tenders being left out of consideration.

The Chief Electrical Engineer reserves to himself the right to refuse the lowest or any tender, whole or part, without assigning any reason therefor.

Tenders should reach this office not later than 2 P.M. on Saturday the 5th August 1939, and should be superscribed ' "Tender for Printing and Supplying the Combined Telephone Directory, to be opened at or after 2 P.M. on 5th August 1939."

P. V. K. MURTHY,
For *Chief Electrical Engineer.*
